ELYKO™ P

Multi Micronutrients

ELYKO corrects the micronutrient deficiencies in plants and helps in vigorous growth.

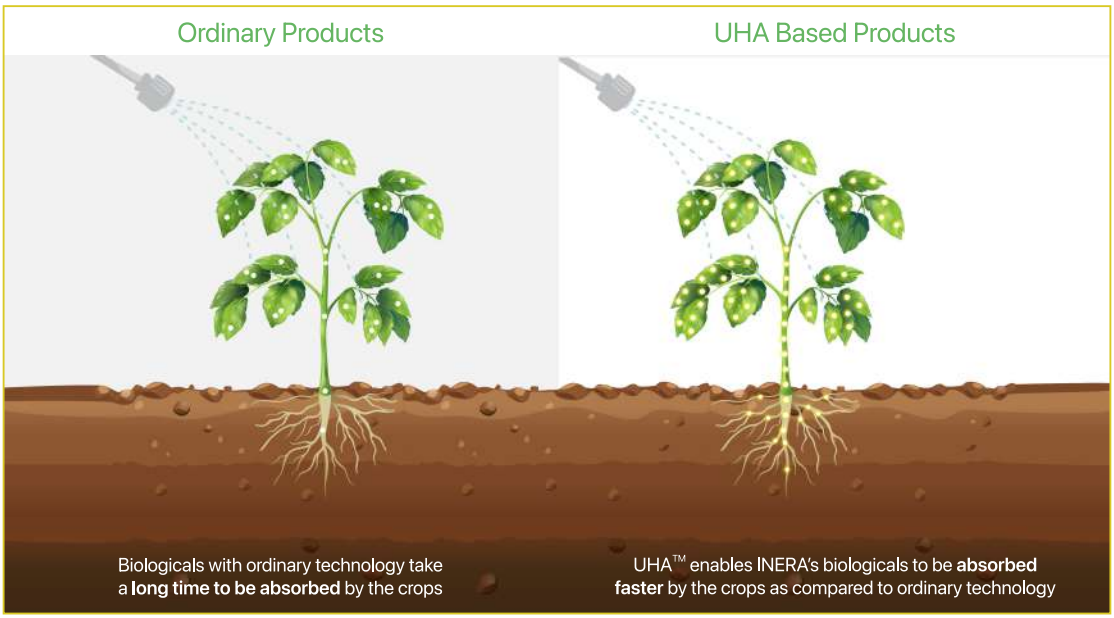

Benefits of ELYKO™ P

UHA
TECHNOLOGY

Ultra High Absorption

Engineered to enhance the absorption of micronutrients by plants resulting in higher activity within a short span of time. UHA technology employs advanced techniques to ensure that plants receive the maximum benefit from each application.

Corrects Micronutrient Deficiencies: Supplies highly concentrated essential micronutrients enhancing their availability to plants & addressing deficiencies that cause poor growth, yield loss, and increased susceptibility to pests & diseases.

Boosts Major Nutrient Utilization: Improves the usage and availability of key nutrients for plant growth, leading to higher yields.

It contains specific micronutrients (e.g. Zinc, Iron, Manganese, Copper, Boron, and Molybdenum) as per the state guidelines.

User-Friendly and Safe: It is safe and straight forward to apply.

Formulation & SKU

Dosage & Application Window

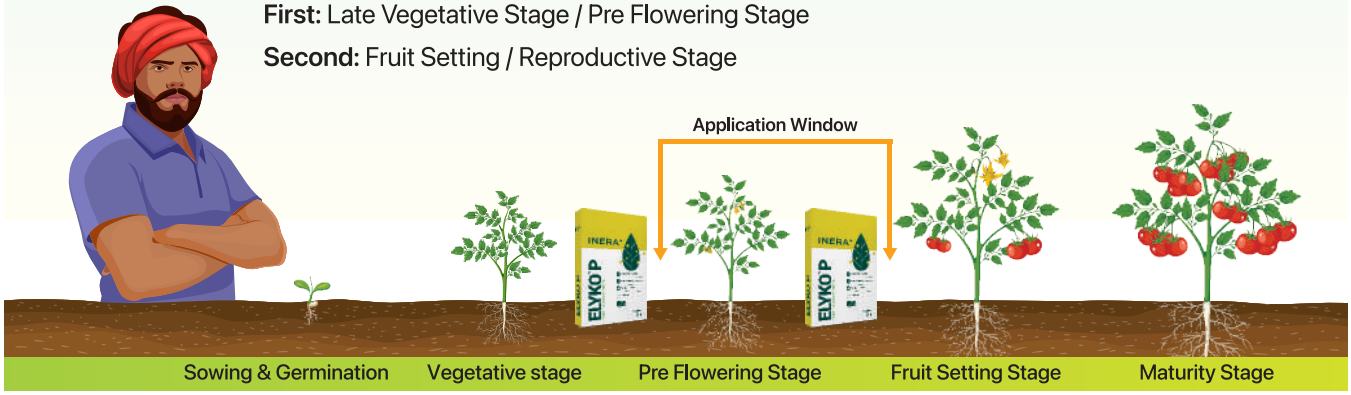

Dosage and Method of Application:

Powder - 250 gm/acre, Foliar

Application Window:

First: Late Vegetative Stage / Pre Flowering Stage

Second: Fruit Setting / Reproductive Stage

Crops

Cotton, Rice, Corn, Oil Seed, Groundnut, Wheat, Soybean, Sugarcane, Capsicum, Tomato, Chilli, Okra, Brinjal, Onion, Garlic, Ginger, Potato, Banana, Pomegranate, Grapes, Citrus.
